## WHAT I REQUIRE

I would like to meet new inspirational people and find new contacts with whom I can discuss the situation on the Czech market because business and sales are the one that hurts us the most. I am still trying to find a way how to sell the design thinking process to clients, not just a logo as a picture but as a whole process which really helps.

## WHAT WE OFFER

We offer creative & branding services. We believe that creativity is a sophisticated process and therefore the creative team and client should work together. We tailor design services to your business which really helps.
